ABOUT ME

Hey :) , I am Ushan Niluminda Jayawardana and I'm from Sri Lanka .I am 22 years old still young :). I majored in Mathematics in my high school at Royal College Colombo . Since childhood i was intrigued by math's and computer world. As a result I am studying software engineering currently in Riga. And it is in my utmost desire to become a professional software engineer and deliver something amazing to the world . I go all out when I'm doing something , I am not just a geek ,I love to hang around with people and also travel around the world. Before my end comes it's within my dreams to travel across each and every country in the world .
